

We make Office Furniture & Fitout easy...

In 1984, Interia Systems was founded with a vision to provide innovative Office furniture and Office fitouts that offer the ultimate user experience whilst delivering real value for our customers.

Driven by an intense commitment to service and a reputation for quality, now with over 30 years' experience, we offer Perth's best range of office furniture and a market-leading hassle-free complete 'Design>Furnish' office fitout service.

Whether you're an aspiring start-up company or one of the world's best known blue-chip corporations, we have the solutions and options to suit your work-style and your budget.

Our 'in-house' divisions cater for workspace design, manufacturing, direct-importing, installation and project management, affording us complete control over your project, allowing us to seamlessly integrate every facet required whilst offering you unbeatable value for money.

As approved vendors to many of Australia's largest companies, Interia Systems has created and furnished countless prominent projects within both the private business and government sectors. We also have the credibility of being a proven supplier to the WA Government for over 5 years.

Our Mission...

To create workspaces that enable you to work, learn, meet and relax...better. We strive for the highest quality and faster delivery with value-for-money and exceptional easy-to-deal-with service.

We seek to reward and elevate every client, every employee and every investor.

Our Vision...

To be the supplier of choice for Office furniture and Office fitout where quality, service and reliability are prerequisites.

Our Core Values...

To be honest, ethical, competent, professional and generous in all our activities and at all times.

OUR CUSTOMERS

Free Office Layouts

Take advantage of our very popular Free Office Layout Service...

Our experienced space-planners will show you how to layout your new office furniture whilst maximising your available space and integrating modern and efficient design trends...All for free,,,

FREE OFFICE LAYOUTS

Colour Selection

Interia Systems offers a complete colour selection and specification service.

Our design consultants will carefully listen to your objectives and evaluate your corporate image, then use their experience and flair to create a proposal that suits your company.

You can also choose from our stunning range of standard 'professionally composed' colour concepts and schemes.

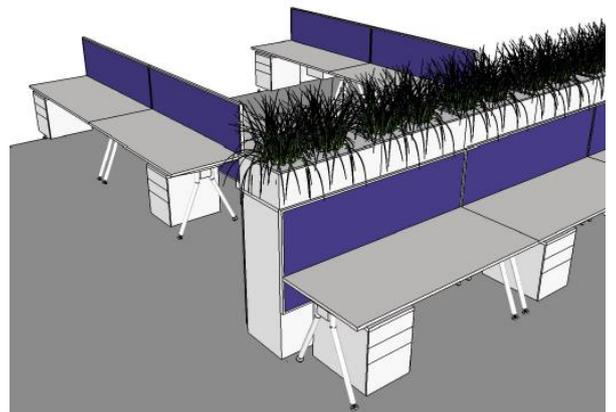

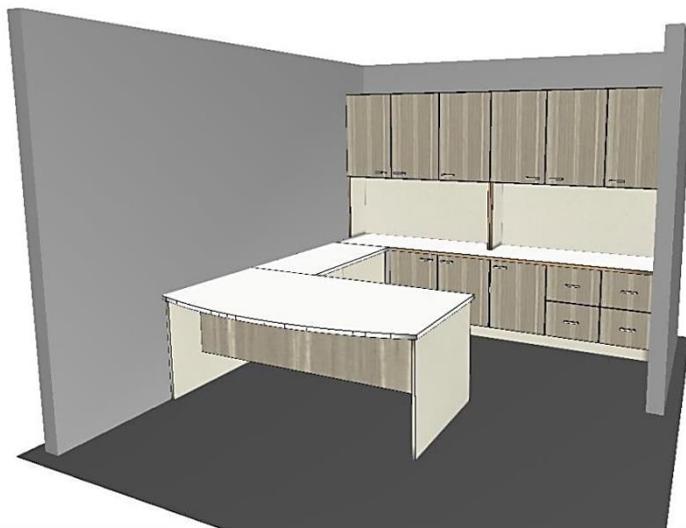

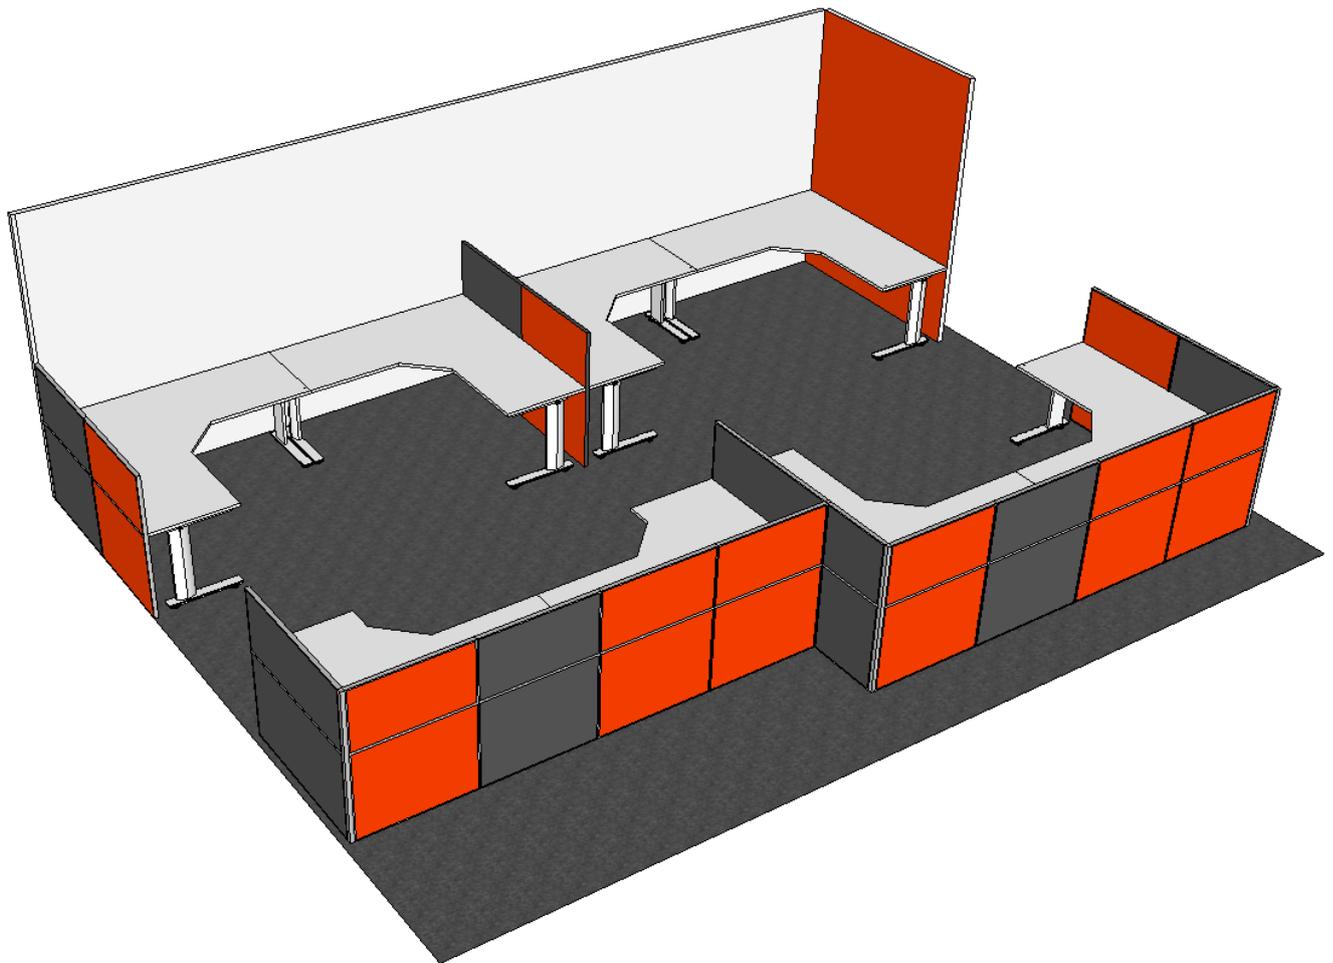

3D Visuals

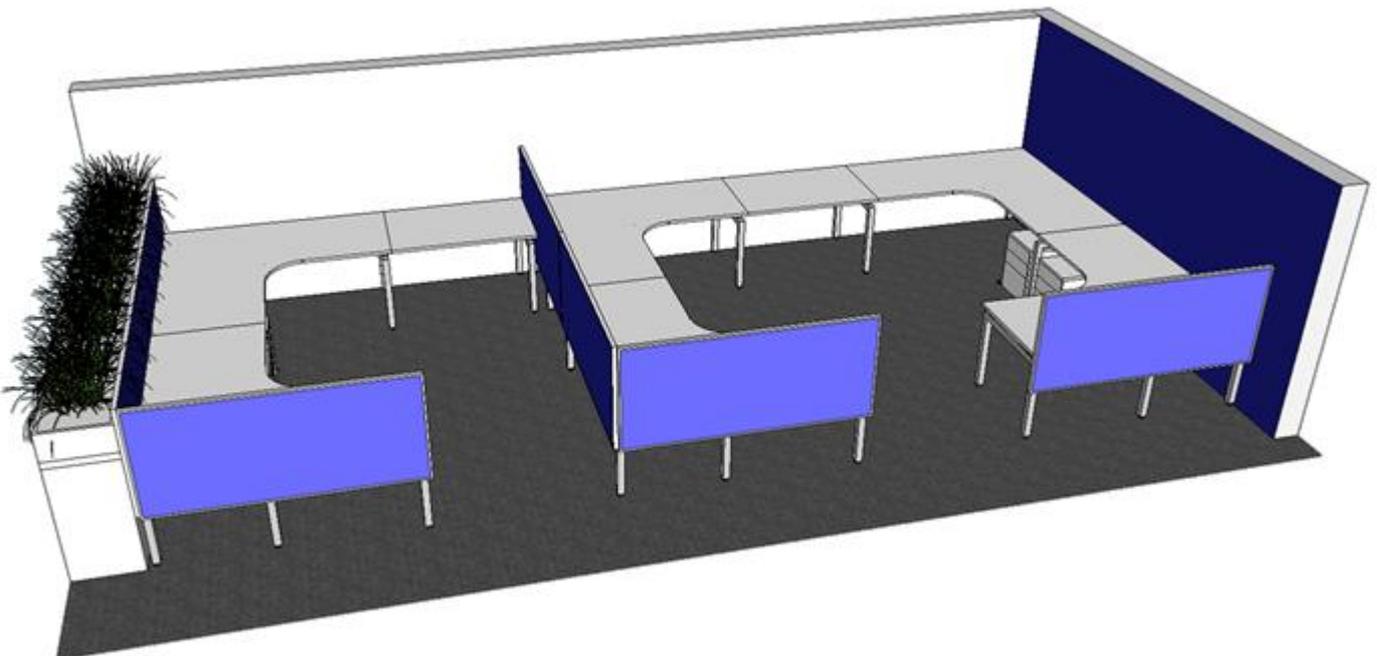

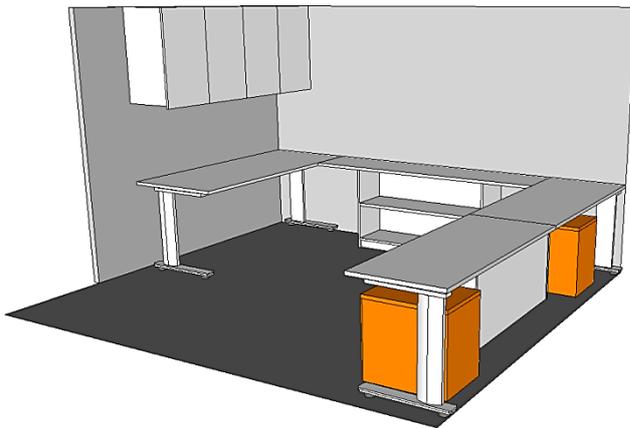

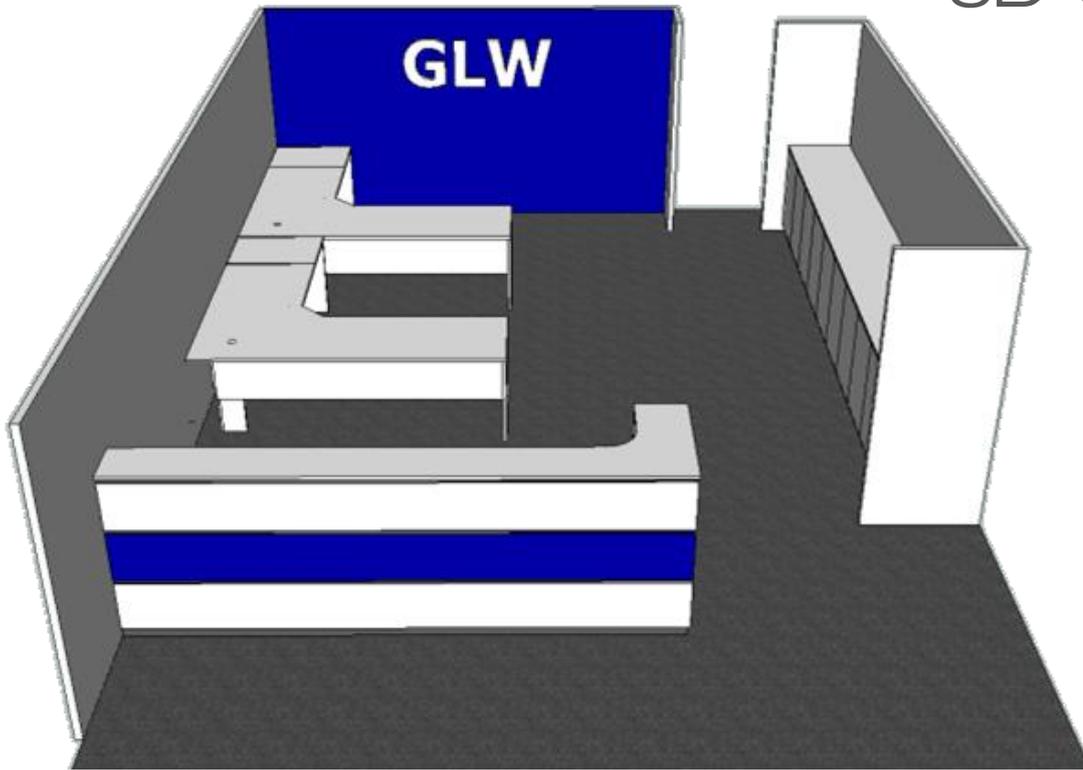

Our designers can produce concepts and proposals with detailed 3D Visual drawings that reflect your exact layouts, allowing you to visualise your space...

With the assistance of parametric design software, we can also integrate visual renders of your chosen finish options...

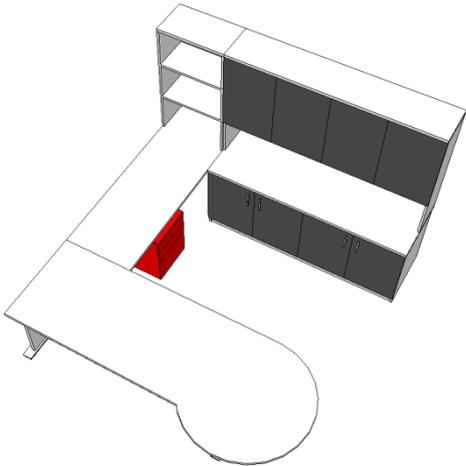

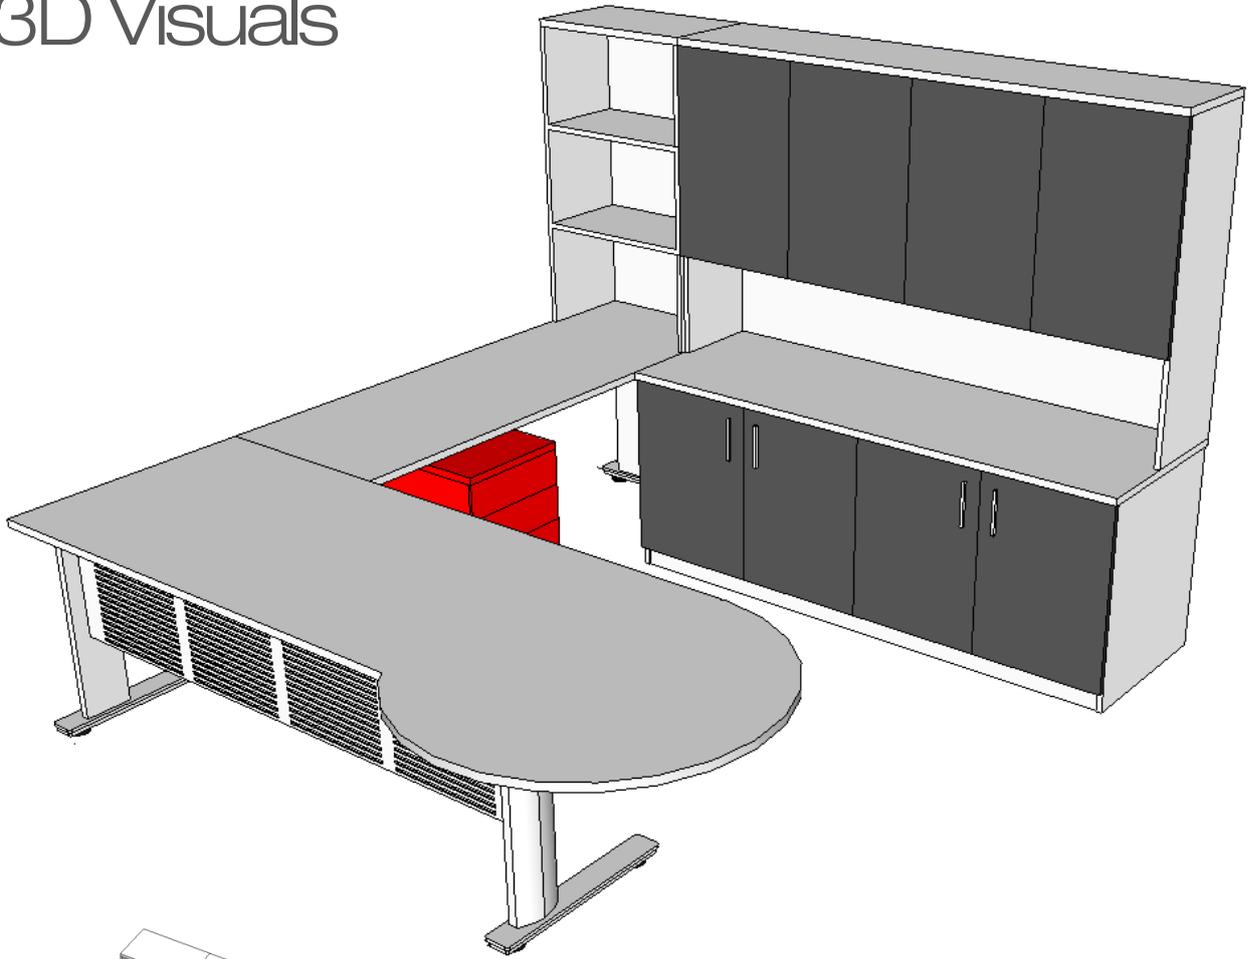

This level service incurs a design fee that will be deducted from your project invoice.

3D Visuals

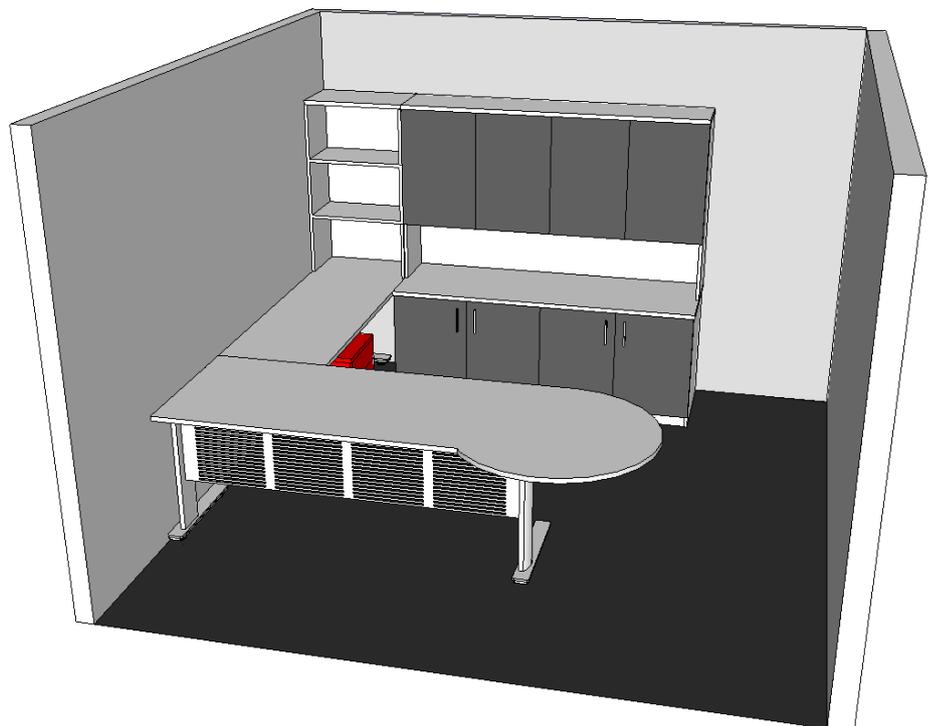

3D Visuals

With 3D concepts, you can visualise your workspace from any angle and mix and match different colour schemes...

PROJECT

WORKSTATIONS &
DESKING SYSTEMS

Prestio60 System

Interia Systems' Prestio60 system is a cost-effective and totally flexible way to configure your office facility, delivering efficiency whilst maximising your available floorspace...

With its limitless ways of inter-connecting and range of coordinated accessories, Prestio60 will support every work style and compliment any modern office design scheme.

The 60mm panel construction offers unsurpassed stability and rigidity allowing shelves and hampers to be supported by the load-bearing top rail.

Prestio60 can be manufactured to suit you...be it size, colour, material or panel configuration. Glazed panels and function rails are further options as are integrated power poles or blade walls to carry cabling to the ceiling or floor.

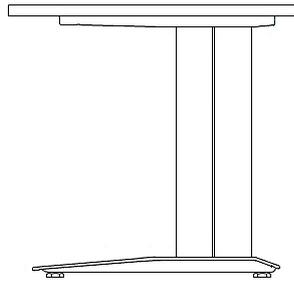

Leg Options

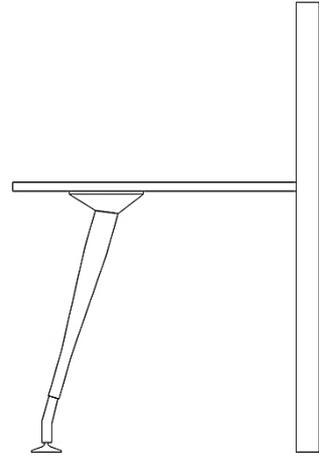

Choose a legs style that suits your desired look and budget...

Fixed or height-adjustable options allow complete flexibility whilst melamine panel legs offer more under-worktop screening.

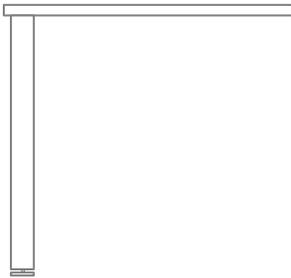

Legs can be spaced to suit your requirements...

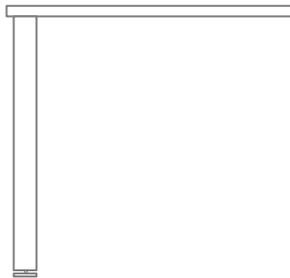

Stockholm C-leg

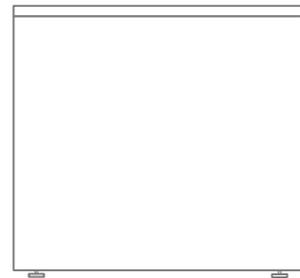

Oslo-leg (Height adj.)

Tempo Round-leg

Miami Square-leg

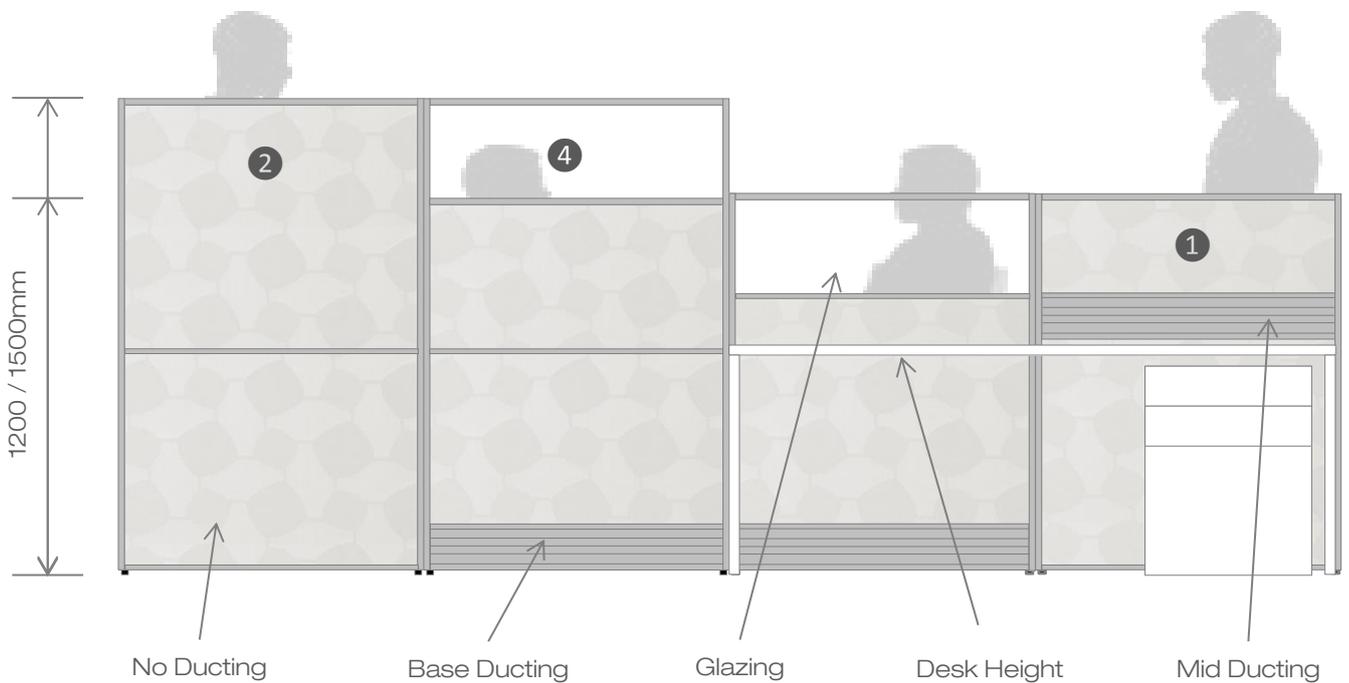

Alpha Melamine-leg

Screen Heights

Prestio60 workstations can be specified with a range of screen heights to balance privacy and acoustics with staff interaction.

- 1 Lower screens (up to 1200mm) generally provide a very open plan environment and allow full visual interaction between seated operators.
- 2 Mid-range screens (1500mm) offer increased privacy and acoustics visual interaction is possible between standing but not seated personnel.
- 3 Higher screens (1800mm and over) provide total visual privacy from even standing personnel whilst also affording the highest noise acoustic levels...ideal for call-centres..
- 4 Glazed panels offer a more open feel whilst still providing some acoustic barrier...

Linq System

The Linq workstation system offers ultra-modern styling with its O-shape leg design and finely-finished triangular construction.

Linq's components work together to create a complete solution that will support any working style or layout from stand-alone executive and management settings to hot-desking and team clusters.

Linq can be specified in a selection of popular colours and sizes or completely customised to reflect your specific requirements into numerous interconnecting patterns for group situations.

Features...

- 25mm Worktops.
- Attractive 'O' leg design.
- Beam-based top support.
- Floor levelling glides.
- White Frame colour.

Oslo System

Oslo desks & workstations offer the very latest in modern office design. They can be used stand-alone or configured into interconnecting patterns. Oslo easily accommodates staff at all levels of your organisation.

Features...

- 25mm Worktops.
- 100mm height adjustment.
- Modern tapered leg design.
- Beam-based top support.
- Floor levelling glides.

Miami System

Munich desks & workstations make fitting out your office very simple. They can be used stand-alone or configured into interconnecting patterns. Munich easily accommodates staff at all levels of your organisation.

Features...

- 25mm Worktops.
- Attractive 'A' leg design.
- Beam-based top support.
- Floor levelling glides.
- White or Silver Frame colour.

Stockholm System

In today's corporate scene, constant change and the use of technology requires furniture that is flexible and adaptable. Stockholm perfectly satisfies these demands for your work area. Its steel-beam or modesty panel construction offers outstanding rigidity and cleverly carries all cable runs.

Features...

- 25mm Worktops.
- Unobtrusive Metal C-Legs.
- Beam-based top support.
- Floor levelling glides.
- White or Silver Frame colour.

Miami System

Munich desks & workstations make fitting out your office very simple. They can be used stand-alone or configured into interconnecting patterns. Munich easily accommodates staff at all levels of your organisation.

Features...

- 25mm Worktops.
- Attractive 'A' leg design.
- Beam-based top support.
- Floor levelling glides.
- White or Silver Frame colour.

Rome System

The Rome Workstation & Desking range offers full electric height adjustment where, at the simple touch of a button, the worktop can be set anywhere between 700mm and 1220mm above the floor.

Perfect for multi-user areas such as hot-desking or multi-task operations, Rome desks accommodate both sit and stand tasks and offer the ultimate in workspace ergonomics.

Sturdy and stylish metal 'C' legs provide outstanding rigidity and unimpeded user leg space.

Features...

- 25mm Worktops.
- 680-1200mm Height adjustment.
- Unobtrusive 'C' leg design.
- Beam-based top support.
- Floor levelling glides.
- White or Silver Frame colour.

RAPIDO

SOFT WIRING &
DATA SYSTEM

RAPIDO

Rapido soft-wiring and cable-management system is the simple, flexible and cost-effective way of providing power/data and voice connections to your workspace.

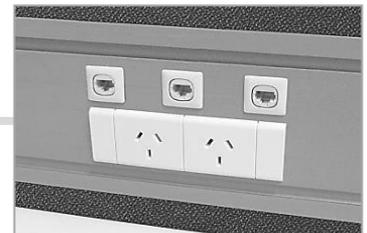

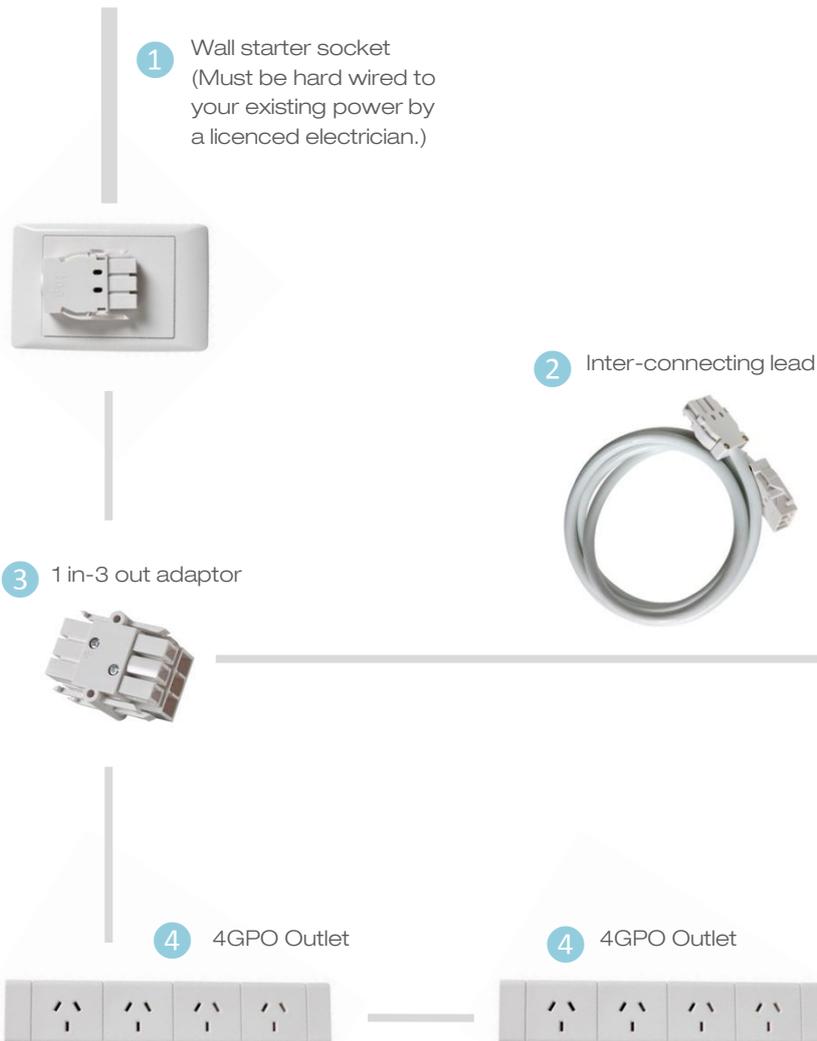

The array of interconnecting components are quick and easy to install and can be easily reconfigured at a later stage should your requirements change. Only the initial wall starter socket must be wired into your existing power circuit by a licenced electrician.

Rapido soft-wiring is tested to comply with the requirements of AS/NZ61535.1.2003 and is backed by the Interia Systems warranty system.

SOFTWIRING & DATA SYSTEM - WORKSTATIONS

Your power source

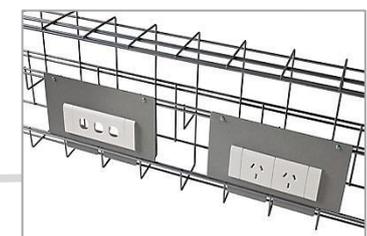

Duct-mounted module.

Above worktop module

Below worktop module

EXPANSE

MODULAR CABINET
& JOINERY SYSTEM

EXPANSE

Achieve the built-in look without the built-in price tag...

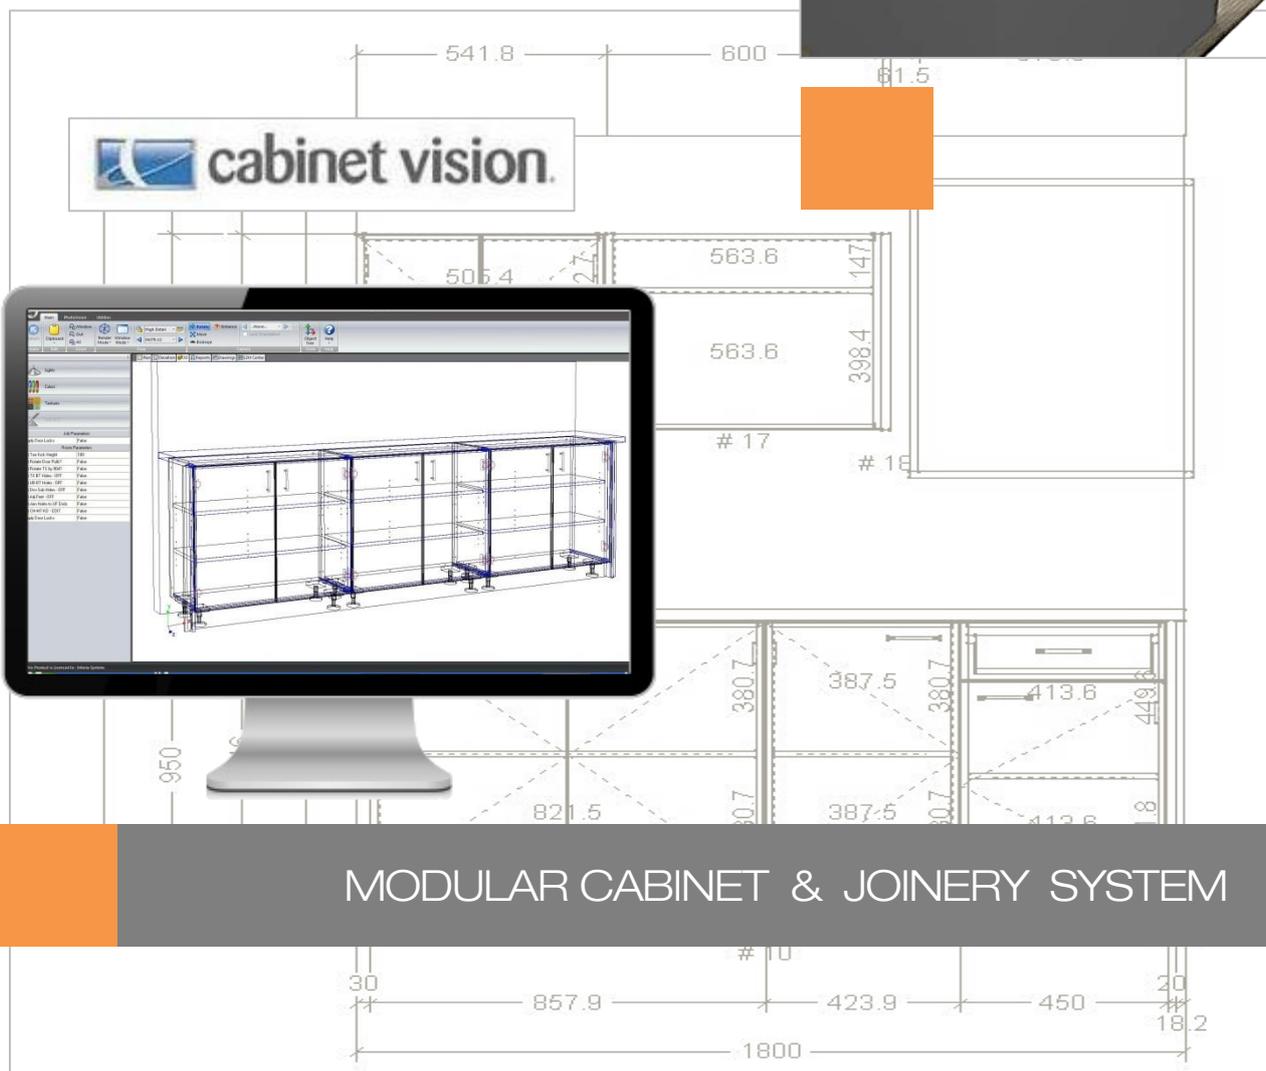

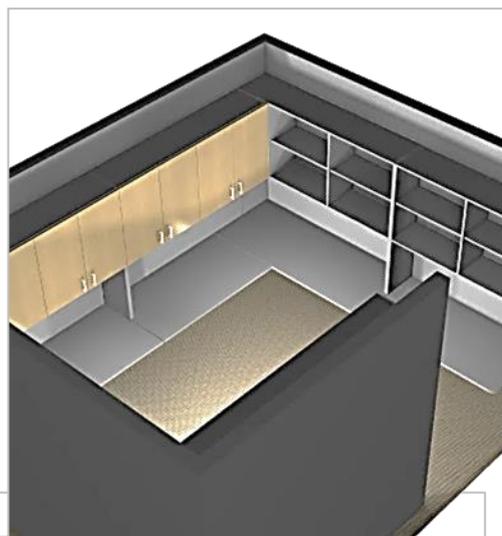

With the Expanse system, you can now specify a semi built-in customisable cabinet system that is easily installed with minimum onsite time and disruption.

Choose from a large array of units and configure them into the layout of your choice, then alter the sizing to suit your available space.

Expanse can be finished in most of today's designer finishes and can incorporate your choice of board substrate, handle design and a myriad of options including locking and worktop styles.

The one-piece kick-board completes the integrated look and units can also be configured back-to-back to form island benching.

Expanse is designed & created with Cabinetvision Screen-to-machine software...offering extreme precision & quality with exceptional value-for-money...

MODULAR CABINET & JOINERY SYSTEM

Base Units

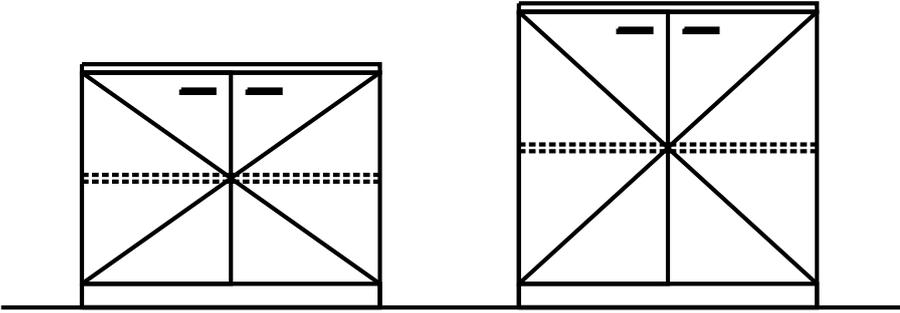

Standard depth - 450mm, 600mm (Filing & drawer units - min 600mm)

Base Units can be specified at either 900 or 720mm high.

Standard plinth height is 70mm.

Standard cabinet depths are 450 or 600mm (Top size).

Units can be configured back to back with one top spanning both units for island benching.

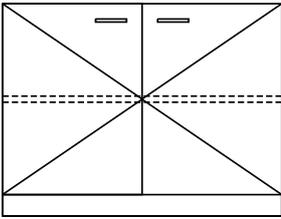

Base unit - 720h

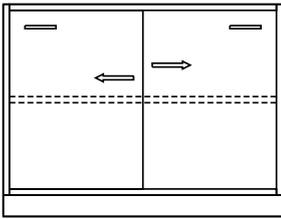

Base unit 900h

Optional configurations - 900h & 720h

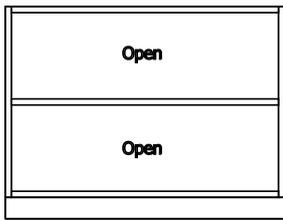

(1) Hinged doors

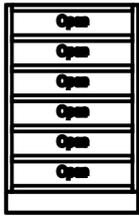

(2) Sliding doors

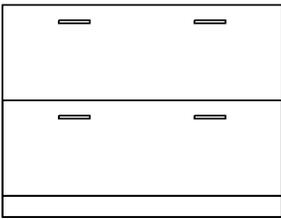

(3) Open shelves

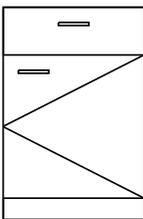

(4) Open pigeon holes

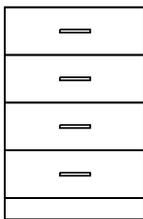

(5) Lateral filing drawers

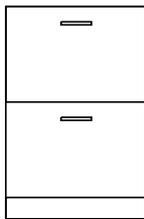

(6) 1x drawer/door

(8) 2x file drawers

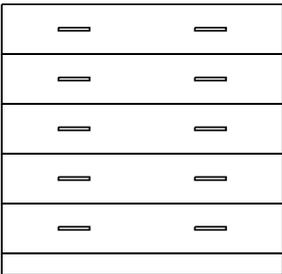

(9) 2x drawers/1x file drawer

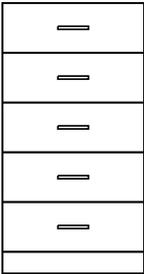

Optional configurations - 900h only

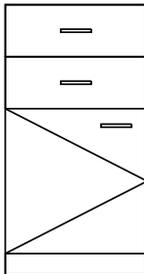

(1) 5x plan drawers

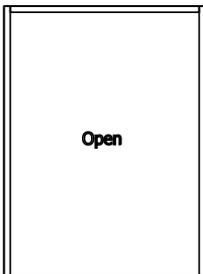

(2) 5x drawers

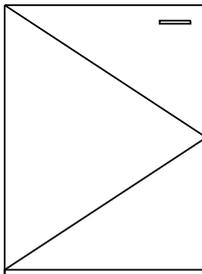

(3) 2x drawers/door

(4) Open unit

(5) Fridge unit

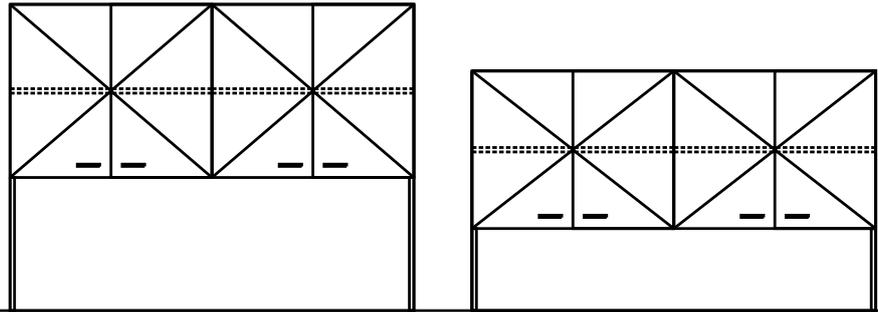

Overhead Units

Standard depth - 350mm Optional depth - 450mm

Overhead Units can be placed on both 900 & 720mm high Base Units.

Standard void height is 600mm for 1380h unit & 350mm for 1080 h unit.

Standard depths are 450 or 350mm.

Overhead unit – 1380h (2100h)

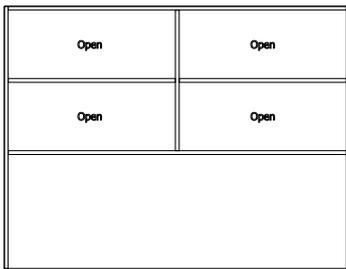

Overhead unit 1080h (1800h overall)

720h

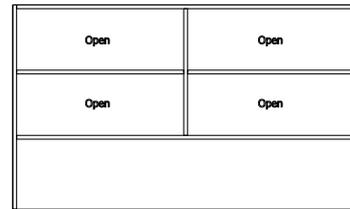

OVERHEAD UNITS

Optional configurations – 1380h & 1080h

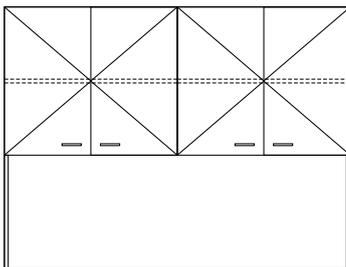

(1) Overhead unit – 2x rows open shelves

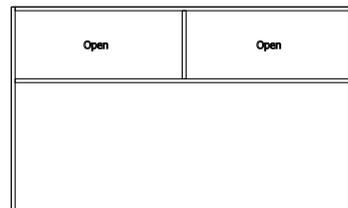

(1) Overhead unit – 2x rows open shelves

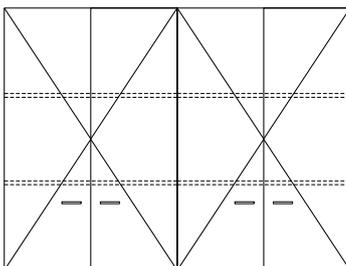

(2) Overhead unit – 2x rows shelves with doors

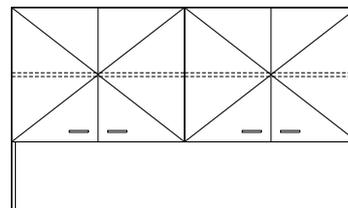

(2) Overhead unit – 1x row open shelves

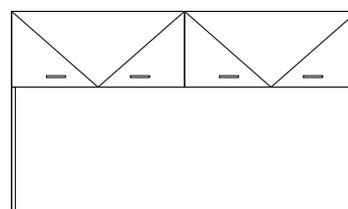

(3) Overhead unit – 3x rows shelves with doors

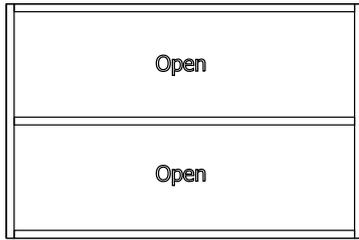

(3) Overhead unit – 2x rows shelves with doors

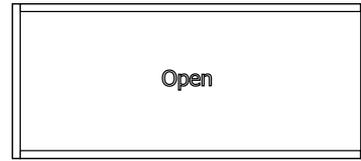

(4) Overhead unit – 1x row shelves with flipper doors

Standard depth - 350mm Optional depth - 450mm

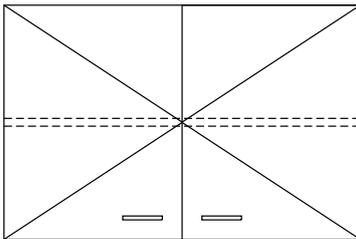

Wall-mounted Storage – 900, 750, 600h

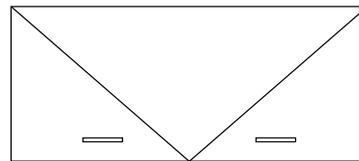

Wall-mounted Storage – 450h

Optional configurations – 750h, 600h & 450h

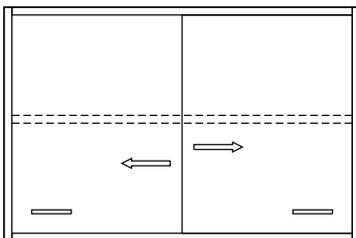

(1) Overhead unit – 2x rows shelves with hinged doors

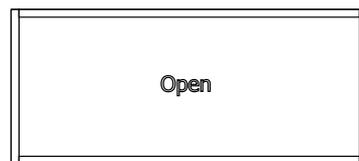

(1) Overhead unit – 1x row open shelves with flipper door

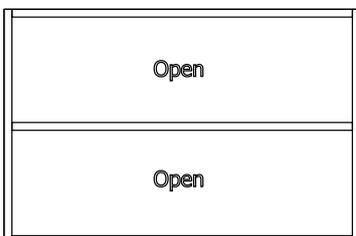

(2) Overhead unit – 2x rows shelves with sliding doors

(2) Overhead unit – 1x row open shelves

(3) Overhead unit – 2x rows open shelves

Tall Units

Standard depth - 450mm Optional depth - 350mm, 600mm

Tall Units can be specified at either 1800 or 2100mm high.

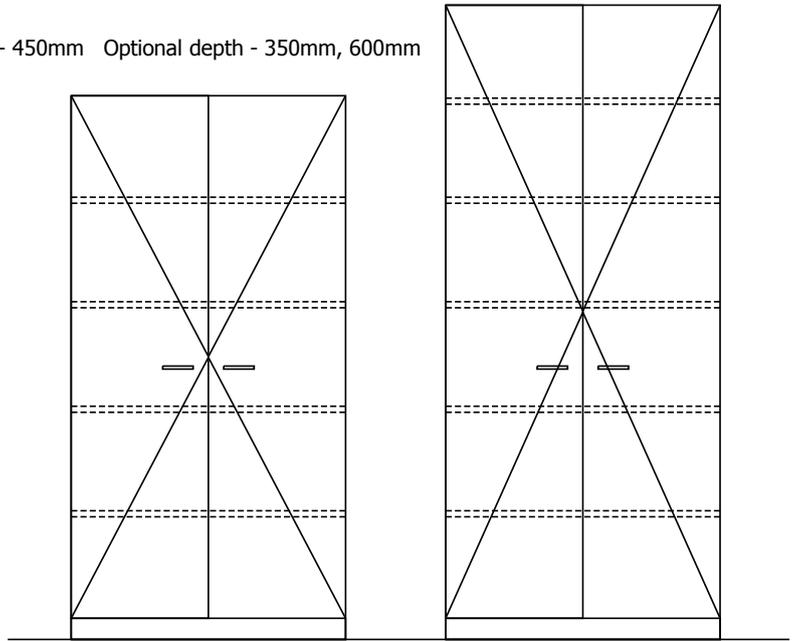

Standard plinth height is 70mm.

Standard cabinet depths are 450 or 600mm .

Units can be configured back to back for island storage.

Doors can be either full-height or split height.

Coat rails are an option.

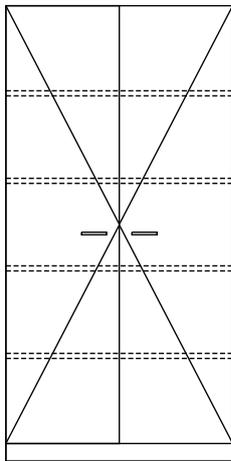

Tall unit – 1800h

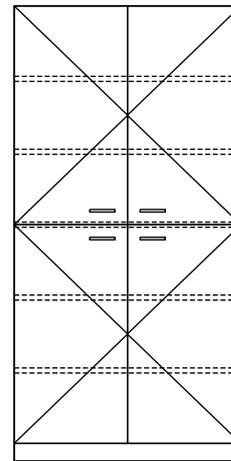

Tall unit 2100h

Optional configurations – 1800h & 2100h

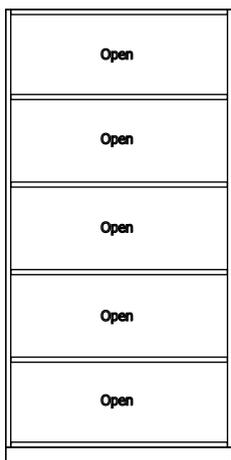

(1) Tall unit – 5x row shelves with single doors

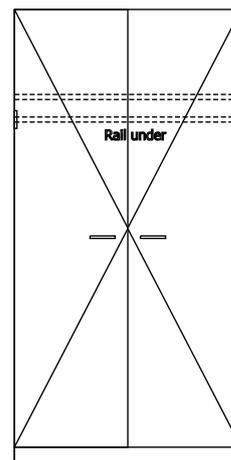

(2) Tall unit – 5x row shelves with split doors

(3) Tall unit – 5x rows open shelves

(4) Overhead unit – 1x shelf & coat rail with doors

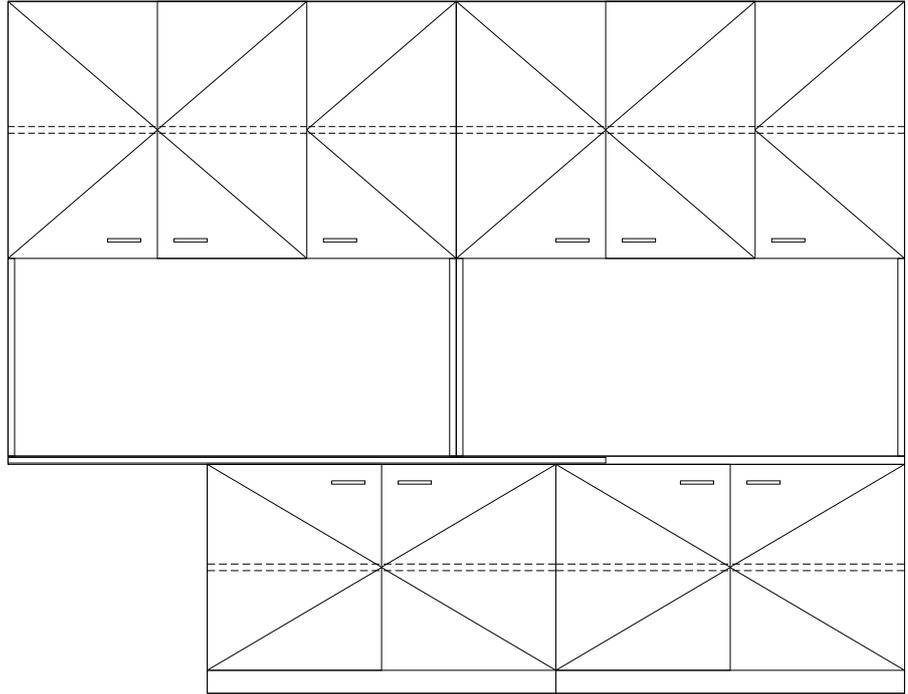

Office Storage Units

(1) Base unit – All hinged door cupboards

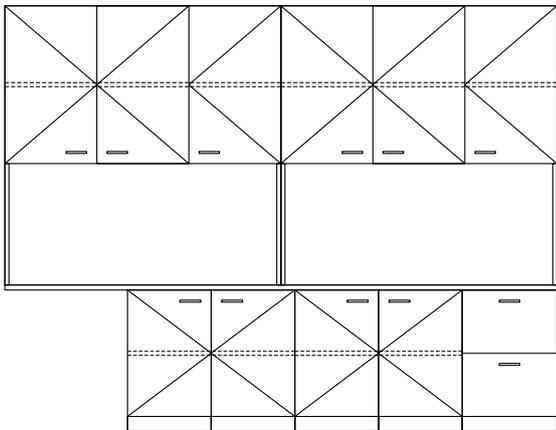

This range of Office Storage Units suits Executive & management offices.

The void space is to accommodate the worktop return.

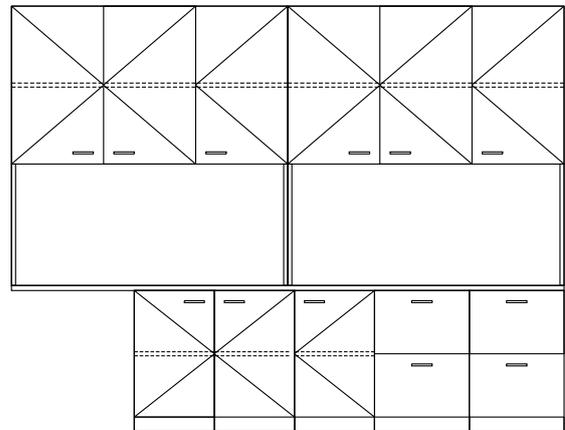

Modules can be configured as desired.

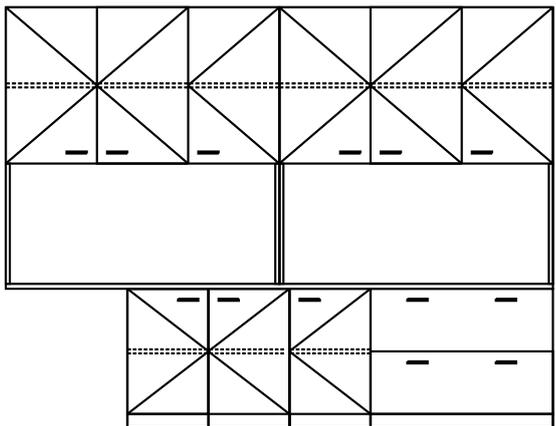

(2) Base unit – Hinged door cupboards + 1 bank filing

(3) Base unit – Hinged door cupboards + 2 banks filing

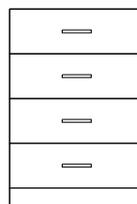

(4) Base unit – Hinged door cupboards + Lateral filing

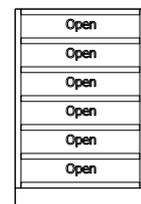

Optional modules

(1) 4x personal drawers

(2) Open filing shelves

Options

The Expanse range can be specified with a range of worktop styles and thicknesses.

Laminate & melamine are available with post formed front edge a further option.

25mm Melamine with 2mm ABS edging

33mm Melamine with 2mm ABS edging

33mm Post-formed laminate
