Creating Work[ing] Spaces

Sandy

Seating

12 - 16 Week Lead Time

Sandy

Sandy is a collection of elegant chairs and lounge furniture designed to transform modern offices into stylish and comfortable spaces. It consists of high-back executive chairs, medium-back task chairs and low-back meeting chairs. The collection also includes two types of lounge chairs: with high and low backrests.

The collection's visual identity is defined by its unique backrest, which is separate from the seat and gives the collection an expressive and modern look. The chairs and lounge furniture have no straight lines, just soft and smooth curves that blend into a cohesive, expressive whole. Offering an exceptional sense of comfort, this furniture can be easily adapted to a variety of office spaces.
